PROFESSIONAL SUMMARY

Motivated Information Science and Engineering graduate with a strong academic record (CGPA 9.02) and hands-on internship experience in web development and data analytics. Skilled in building user-friendly applications and working with data visualization and analysis tools. Quick learner with strong problem-solving abilities, seeking opportunities in frontend development, Android app development or data analytics roles.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Data & Analytics: SQL, Microsoft Excel, Power BI

Mobile App Development: Kotlin, Jetpack Compose

Tools: GitHub, VS Code

INTERNSHIP EXPERIENCE

MERN Stack Development Intern | Tech Organization, Remote 2025

- Built a full-stack Recipe Sharing App using HTML, CSS, JavaScript, and MongoDB
- Designed and tested user-friendly front-end interfaces, applying performance and usability best practices.

Data Analytics Intern | Innobyte Services, Remote 2026

- Developed an Amazon Sales Analysis Dashboard using Microsoft Excel and Power BI
- Cleaned and transformed raw sales data, creating interactive visualizations and insights
- Delivered actionable reports on sales trends, product performance, and regional metrics

Android App Development Using Gen AI Intern | Tech Organization, Remote 2026

- Developed Pratham Chikitse, a healthcare Android application using Kotlin and Jetpack Compose
- Integrated Generative AI capabilities to provide intelligent health assistance features
- Followed modern Android development best practices with a clean MVVM architecture

ACADEMIC PROJECTS

Accident Predictive Analysis with Real-Time Solution & Overtaking Assistance | Python, ML, AI

- Developed a real-time accident prediction system using Python and machine learning algorithms
- Built an overtaking assistance module that uses AI to detect and alert drivers during unsafe overtaking scenarios
- Achieved real-time processing and prediction without hardware sensors, using only software-based AI models

AWS Wild Rydes - Serverless Ride Request System | AWS Lambda, API Gateway, DynamoDB, S3

- Architected a scalable serverless platform on AWS to handle ride requests end-to-end
- Implemented real-time data pipelines using Lambda and API Gateway with DynamoDB as the NoSQL backend
- Hosted the frontend on S3, demonstrating cloud-based infrastructure relevant to data and backend development

EDUCATION

B.E. – Information Science & Engineering 2022 – 2026

Vivekananda Institute of Technology, Bengaluru | **CGPA: 9.02**

PUC – PCMB 2020 – 2022

Govt. PU College, Byndoor | **85%**

SSLC 2019 – 2020

Morarji Desai Residential School, Koteshwara | **85%**

LANGUAGES

English | Kannada
